PROFESSIONAL SUMMARY

Highly motivated Full-Stack MERN Developer and BCA final-year student with practical experience in building and deploying responsive web applications. Proven ability to integrate innovative features and contribute effectively to professional environments.

PROJECTS

Frontend – Personal Portfolio

React.js, Tailwind CSS, JavaScript

- Developed and launched a high-performance **Single-Page Application (SPA)** using React.js to professionally showcase skills and key projects.
- Engineered a modern, **fully responsive user interface** using Tailwind CSS, ensuring pixel-perfect display and functionality across all **mobile** and **desktop devices**.
- Integrated **React Router** to establish smooth, instant, and efficient client-side navigation between major sections (Home, Projects, Contact), significantly enhancing user experience.

Hospital Management System

Node.js, Express.js, React.js, Tailwind CSS, MongoDB

- Built and deployed a full-stack **Hospital Management System** utilizing the **MERN Stack**, overseeing end-to-end data flow from the user interface to the database.
- Designed and implemented the front-end as a fast, maintainable **Single-Page Application (SPA)** using **React.js**, prioritizing a highly intuitive and easy-to-use interface.
- Established and managed the **secure MongoDB database** schema to safely store and manage sensitive patient, doctor, and appointment records.
- Developed **RESTful APIs** using **Node.js** and **Express.js** to facilitate seamless and correct data communication between the React front-end and the MongoDB back-end.
- Implemented strong security protocols using **JSON Web Tokens (JWT)** for user authentication and authorization, ensuring patient data confidentiality.
- Streamlined a core operational process (e.g., Appointment Scheduling or Automated Billing) that improved task speed by **30%**, demonstrating direct business impact.

TECHNICAL SKILLS

Programming:	C, Java, SQL(Basic)
Frontend:	HTML, CSS, JavaScript, React.js, Responsive Web Design
Backend:	Node.js, Express.js, REST APIs
Database:	MongoDB, MySQL (basic knowledge)
Tools:	Git, GitHub, VS Code, Postman
Soft Skills:	Quick Learner, Time Management, Teamwork, Adaptability & Logical Thinking
Core Concepts:	Data Structures & Algorithms, OOPs, DBMS

EDUCATION

Narula Institute of Technology

Aug 2022 – July 2025

Computer Application | **CGPA: 7.8**

Kolkata, India

Khanna High School

Jan 2020 – Dec 2022

Higher Secondary | **percentage: 78.6%**

Kolkata, India

CERTIFICATIONS & ACHIEVEMENTS

- Secured 2nd Position in Technical Quiz Competition organized at Narula Institute of Technology.
